

## BUTTERFLY VALVE

### **Application**

Butterfly valves are used for ON/OFF applications ideal for the use with low and medium viscosity liquid. The range of elastomere seals like EPDM, Viton, Silicon, NBR etc depending upon the application.

### **Standard Design**

SS Disk is polished to surface roughness  $Ra < 0.8$  micro meter and high quality bearings pushes one clipped on to the disc stems, avoiding any metal to metal abrasion.

Valves are suitable for working on pressure from full vacuum upto 7 bar.

Valves are available with standard handle with spring locking action for manual operations like pulling/turning movements.

### **Materials**

Steel parts: AISI 304  
O-rings: Nitrile (NBR).  
Plastic parts: PTFE.  
Finish: Semi bright.
